Independent Auditors' Report

The Board of Directors
The University of Mississippi Foundation:

Opinion

We have audited the financial statements of The University of Mississippi Foundation (the Foundation), which comprise the statements of financial position as of June 30, 2025 and 2024, and the related statements of activities, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as of June 30, 2025 and 2024, and the changes in its net assets and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

THE UNIVERSITY OF MISSISSIPPI FOUNDATION

Notes to Financial Statements

June 30, 2025 and 2024

(1) Nature of Organization

The University of Mississippi Foundation (the Foundation) is a nonprofit, nonstock corporation formed for the benefit of The University of Mississippi (the University). The Foundation promotes, encourages and assists educational, scientific, literary, research and service activities of the University and its affiliates.

(2) Summary of Significant Accounting Policies

(a) Use of Estimates

The Foundation prepares its financial statements in accordance with U.S. generally accepted accounting principles ("GAAP"), which require that management make estimates and assumptions that affect the reported amounts of assets and liabilities and revenues and expenses. Such estimates include the present value discount rates applied to the pledges receivable and liabilities under remainder trusts, allowance for uncollectible pledges, fair values of certain investments including real estate, partnership and member interests and depreciation of property and equipment. Actual results could differ significantly from those estimates.

The Foundation's investments are primarily invested in various types of investment securities within many financial markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the fair value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Foundation's financial statements.

(b) Donor-Imposed Restrictions

Net assets, revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation are classified into the following two classes:

- *Net assets with donor restrictions* consist of contributions that have been restricted by the donor for specific purposes or are time restricted, including contributions where donors stipulate the resources be maintained in perpetuity, but permit the Foundation to use or expend part or all of the income derived from the donated assets for either specified or unspecified purposes.
- *Net assets without donor restrictions* represent funds that are available for support of the operations of the Foundation and that are not subject to donor stipulation.

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. The Foundation considers donor contributions to the various University schools and departments to be included in net assets with donor restrictions as those University units have authority over expenditures. Expenses are reported as decreases in net assets without donor restrictions. When a donor restriction expires or the stated purpose is accomplished, net assets are reclassified as applicable in the statements of activities as net assets released from restrictions.

Board-designated net assets are net assets without donor restrictions that are used only for the specific purpose passed by Board resolution. Changes to designations require a subsequent Board resolution. The President/CEO and other staff of the Foundation may not change the purpose of any

THE UNIVERSITY OF MISSISSIPPI FOUNDATION

Notes to Financial Statements

Board-designated funds without the consent of the Board. Board-designated net assets are approximately \$24,700,000 and \$23,500,000 at June 30, 2025 and 2024, respectively. These net assets are designated for providing a general operating fund reserve and charitable gift annuity reserve.

(c) Revenue Recognition

The Foundation generally recognizes gifts as revenue when notified of an unconditional promise to give. Unconditional promises to give that are expected to be collected in future years are reported at the present value of their future cash flows. The discounts on these amounts are computed using risk-free interest rates at the time of the pledge, which are applicable to the years in which the pledges are scheduled to be received. Accretion of the discounts is included in contribution revenue. An allowance for uncollectible pledges is provided based upon management's judgment, including such factors as prior collection history, type of contribution and nature of the fundraising activity. A provision for uncollectible pledges of approximately \$2,067,000 and \$949,000 is included in the contributions, gifts and bequests caption within the statements of activities for the years ended June 30, 2025 and 2024, respectively. See note 3 for further discussion of pledges receivable. Investments received by gift are recorded at fair value at the date of donation.

The increase in the cash surrender value of life insurance policies is recorded as a component of other income.

The Foundation earns a management fee on endowment funds held. Effective July 1, 2022, the Board approved a reduction of the management fee from 0.5% to 0.4% on endowed funds. Effective July 1, 2018, the Board approved a development fee of 0.4% on endowed funds to be utilized by the University's office of development to expand its staff and reach to increase the University's private support. For the years ended June 30, 2025 and 2024, such fees totaled approximately \$3,879,000 and \$3,526,000, respectively.

(d) Cash and Cash Equivalents and Liquidity

The Foundation recognizes all demand deposit accounts as cash and cash equivalents. It is the policy of the Foundation to consider money market accounts with brokers as other short-term investments. The Foundation received marketable securities by gift, which were immediately converted to cash and are not reflected in cash flows from investing activities. For the years ended June 30, 2025 and 2024, such gifts totaled approximately \$4,792,000 and \$5,456,000, respectively.

As part of the Foundation's liquidity management, it invests cash in excess of daily requirements in short-term investments. There is an established board-designated fund where the governing board has the objective of setting funds aside to be drawn upon in the event of financial distress or an immediate liquidity need resulting from events outside of the typical life cycle of converting financial assets to cash or settling financial liabilities.

THE UNIVERSITY OF MISSISSIPPI FOUNDATION

Notes to Financial Statements

June 30, 2025 and 2024

Cash and cash equivalents and other financial assets available within one year at June 30, 2025 and 2024 are as follows:

	<u>2025</u>	<u>2024</u>

Total financial assets available to meet cash needs for general expenditures within one year	\$ <u>25,132,847</u>	<u>23,782,933</u>

(e) Investments

Investments are recorded at fair value. The fair values of all investments other than real estate and partnership and membership interests (which includes pooled investment funds) are based on quoted market prices and other observable inputs such as quoted prices for similar assets, quoted prices in inactive markets or inputs corroborated by observable market data. The Foundation's partnership and member interests are generally reported at the net asset value (NAV) reported by the fund managers, which is used as a practical expedient to estimate the fair value of the Foundation's interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of June 30, 2025 and 2024, the Foundation had no plans or intentions to sell investments at amounts different from NAV. The Foundation's real estate investments are initially recognized at fair value based on appraised values at the date of receipt and are subsequently carried at fair value. Realized and unrealized gains and losses, dividends and interest are classified in the accompanying statements of activities based on restrictions put in place by the donor.

(f) Tax Status

The Foundation is recognized as an organization exempt from federal income tax under Section 501(a) as an entity described in Section 501(c)(3) of the U.S. Internal Revenue Code, except for taxes on income from activities unrelated to its exempt purpose.

Open tax years are those that are open for exam by taxing authorities. Major jurisdictions for the Foundation include Federal and the State of Mississippi. As of June 30, 2025, open Federal and Mississippi tax years for the Foundation include fiscal years ended 6/30/2022, 6/30/2023, and

THE UNIVERSITY OF MISSISSIPPI FOUNDATION

Notes to Financial Statements

June 30, 2025 and 2024

6/30/2024. The Foundation has no examinations in progress. As of June 30, 2025 and 2024, there were no material uncertain tax positions.

(g) Fair Value of Financial Instruments

The carrying amounts at June 30, 2025 and 2024 for cash and cash equivalents, pledges receivable, beneficial interest in trusts, funds held for others, liabilities under remainder trusts and other liabilities approximate their fair values. See note 4 for fair value of investments.

(h) Split-Interest Agreements

The Foundation accepts gifts subject to split-interest agreements. These gifts are generally in the form of charitable remainder unitrusts (CRUTs) or charitable remainder annuity trusts (CRATs). At the time of receipt, a gift is recorded based upon the fair value of the assets donated less the present value of any applicable liabilities for projected distributions to third parties. The discount rate used to value the beneficiary liability is fixed at the gift date. CRUTs are revalued annually and the projected beneficiary payments adjusted accordingly. Gifts subject to split-interest agreements are classified as net assets with donor restrictions.

(i) Subsequent Events

In connection with the preparation of the financial statements and in accordance with FASB Accounting Standards Codification (ASC) Topic 855, *Subsequent Events*, the Foundation evaluated all events or transactions that occurred after June 30, 2025, through October 31, 2025, the date the financial statements were available to be issued. All subsequent events have been disclosed within the notes to the financial statements.

(3) Pledges Receivable

The Foundation obtains pledges through fundraising projects in support of various activities. All pledges are classified as net assets with donor restrictions. A summary of pledges receivable as of June 30, 2025 and 2024 is as follows:

	2025	2024
Unconditional promises expected to be collected in:		
One year	\$ 23,431,463	19,164,604

(5) Beneficial Interest in Trusts

The Foundation is the beneficiary of a perpetual trust created upon the death of a donor. The interest is shared with an unrelated charitable organization. Income is paid quarterly from the trust to the Foundation, which, in turn, distributes such funds to an account for the benefit of the University's School of

THE UNIVERSITY OF MISSISSIPPI FOUNDATION

Notes to Financial Statements

June 30, 2025 and 2024

Accountancy. The Foundation's interest in this trust totaled approximately \$3,385,000 and \$3,286,000 at June 30, 2025 and 2024, respectively.

The Foundation is also named as the beneficiary of an externally managed remainder trust. This trust was recorded at the present value of the estimated future cash receipts from the assets of the trust. Upon the date of the gift, the Foundation recognized contribution revenue of \$6,300,000. The discount rate utilized for the present value calculation for prior years was 3.6%. As of June 30, 2025, the donor has outlived the established actuarial lifespan and the present value is the fair value of the trust. The Foundation's interest in this trust approximated \$8,626,000 and \$7,973,000 at June 30, 2025 and 2024, respectively.

(6) Fair Value Measurement

ASC Topic 820, *Fair Value Measurement*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that are observable at the measurement date;
- Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data; and
- Level 3: Significant unobservable inputs for the asset or liability that reflects the reporting entity's own estimates about the assumptions that market participants would use in pricing the asset or liability.

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety. In accordance with Subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the fair value hierarchy table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the accompanying statements of financial position.

THE UNIVERSITY OF MISSISSIPPI FOUNDATION

See note 2(e), for information regarding the methods used to determine the fair value of the Foundation's investments. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(7) Endowment Funds

The Foundation's endowment consists of approximately 1,800 donor-restricted funds established for a variety of purposes to benefit the University community. As required by GAAP, net assets associated with endowment funds, including funds designated by the Board of Directors that function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The State of Mississippi adopted UPMIFA effective July 1, 2012. The Foundation's Board of Directors has determined its donor agreements provide for the preservation of the fair value of the original gift as of the date of the gift. As a result, the Foundation segregates within the net asset class with donor restrictions, the original gift amount and amounts required to be retained by donor separate from the portion subject to appropriation.

The Foundation has established policies to achieve the overall, long-term investment goal of achieving an annualized total return, through appreciation and income, greater than or equal to the rate of inflation plus any distribution needs, thus protecting the assets against inflation. The Foundation's Board and Joint Committee on Investments agree that investing in securities with higher return expectations outweighs their short-term volatility risk. As a result, the majority of assets are invested in equity or equity-like securities. Fixed income securities are used to lower the short-term volatility of the portfolio and to provide income stability, especially during periods of weak or negative equity market returns. Cash is not a strategic asset of the portfolio, but is a residual to the investment process and used to meet short-term liquidity needs. The primary performance objective of the Foundation is to achieve a total return, net of investment management fees and expenses, equal to or in excess of inflation and the spending rate.

Income available for spending is determined by a total return system and is approved by the Board of Directors of the Foundation. The amount to be spent for the endowed purpose is calculated based on a

percentage of a long-term monthly moving average of the endowment's market value. The objective is to provide relatively stable spending allocations. However, no portion of the original gift value of the endowed assets is allocated for spending.

Endowment net asset composition by type of fund at June 30, 2025 and 2024 was as follows:

Endowment net assets, June 30, 2025	\$ 24,744,015	569,395,466	594,139,481

As a result of unfavorable volatility in the financial markets, the fair value of assets associated with an individual donor-restricted endowment fund may fall below the total amount of the gifts made to the endowment by the donor. As of June 30, 2025 and June 30, 2024, there were no endowments with a fair value below the amount of the gifts made to the endowment.

(8) Life Insurance Policies

The Foundation has been gifted life insurance policies for which it has been named owner and beneficiary. The face amounts of life insurance policies in excess of cash surrender values held by the Foundation are deferred and recognized as revenue only when collected. The cash surrender value amounts of such policies as of June 30, 2025 and 2024 were approximately \$1,595,000 and \$1,511,000, respectively, which are reflected within other assets in the accompanying statements of financial position.

(9) Charitable Trusts and Gift Annuities

The Foundation administers charitable remainder trusts with investments of approximately \$4,076,000 and \$2,228,000 as of June 30, 2025 and 2024, respectively, which are reported as investments on the accompanying statements of financial position. Additionally, the cash contributed to purchase gift annuities is reported within investments on the accompanying statements of financial position. Pursuant to the trust agreements, specified amounts of income from the trusts' assets must be distributed to the income beneficiaries each year. Liabilities under these trusts and gift annuities totaled \$3,207,353 and \$2,952,569 as of June 30, 2025 and 2024, respectively. The discount rates used in these measurements range from 2.45% to 6.20% at June 30, 2025 and 2024. The remainder of the income and the assets will become the
